AMSEL-SE-IS-SDW-E-I   DATE: 17 December 1998

MEMORANDUM FOR DENTRAD USERS

SUBJECT: Software Version Description (SVD) for Installation
Support Module (ISM) Dental Readiness System (DENTRAD) Interim
Change Package (ICP) HAC-A17-06-04

1.   Enclosed is ICP HAC-A17-06-04 which provides a formal change
to the Dental Readiness System (DENTRAD) ISM.

2.   Acknowledgement of installation of this ICP must be made IAW
instructions provided in Enclosure 1.

3.   This memorandum certifies that the ISM subject software has
been thoroughly tested, is considered to be a quality product,
and is hereby authorized for release to a production environment.

4.   Security Implications: NONE.

Encl   Kevin J. Greaney
                              Colonel, SC
                              Commanding

CHANGE PACKAGE CONTROL NUMBER: (HAC-A17-06-04)

Change Package Control Number: HAC-A17-06-04

CONTENTS

i

Change Package Control Number: HAC-A17-06-04

1.   Scope

1.1 Identification. This Software Version Description (SVD)
applies to the Dental Readiness System (DENTRAD) running on Army
Standard Information Management System (ASIMS) and networked AIX
operating system on UNIX platforms.

1.2 System Overview. DENTRAD is part of the ISM Project which

is an Army-wide Major Automated Information System (MAIS)
initiative. The primary objective of ISM is to enhance, through
automation, installation management functions. ISM applications
consist of standard procedures packaged into functional
applications which automate as well as integrate day-to-day
installation processes. ISM applications use the Installation
Level Integrated Data Base (ILIDB), which is the central
repository for data that is common to more than one ISM
application, and various local databases that contain data
elements unique to the individual ISM applications.

The purpose of the DENTRAD ISM is to assist in managing soldiers'
dental records. Benefits expected from using DENTRAD include
improved overall dental record management, increased accuracy and
timeliness of dental readiness information, and decreased
administrative costs. Major DENTRAD functions are monitoring
panographic information and dental fitness, tracking missed
dental appointments, tracking dental record location, recording
initial dental status during in-processing, and providing reports
for management at all levels.

1.3 Document Overview. This document provides the instructions
necessary for the implementation of the formal Interim Change
Package (ICP) HAC-A17-06-04 of DENTRAD. It informs the users of
the changes made to the system and provides Point of Contacts
(POCs) to be contacted in case of problems.

2. Referenced Documents

2.1 Referenced Documents. This paragraph has been tailored out.

3. Version Description

3.1 Inventory of Materials Released. This paragraph has been
tailored out.

3.2 Inventory of Software Contents. Hardware platform - ASIMS/
UNIX AIX OS users (Installation supported).

This change package contains the following files.

PROGRAM	VERSION	UPDATE
README.dentrad_0604	0600	17 Dec 1998
dentrad_0604.cpio.Z	0600	17 Dec 1998
install_dentrad_0604	0600	17 Dec 1998

Change Package Control Number: HAC-A17-06-04

3.3 Changes Installed.

3.3.1 Corrector Descriptions - Technical.

1. ECP-S/E   HAC-S113-068
    A. CYCLES: None.
    B. PROGRAM: DENTRAD
    C. PROBLEM: Inaccuracy of soldier UIC information.
    D. RESOLUTION: Allow end user to change the UIC in
                        DENTRAD.
    E. ICP: HAC-A17-06-04

2. ECP-S/U   HAC-R302-011

A. CYCLES: None.
B. PROGRAM: DENTRAD
C. PROBLEM: Change title of field.
D. RESOLUTION: Changed field title to read Last Annual
                   Exam Date.
E. ICP: HAC-A17-06-04

3. ECP-S/U   HAC-R302-012
    A. CYCLES: None.
    B. PROGRAM: DENTRAD
    C. PROBLEM: Outprocessed personnel on unit reports.
    D. RESOLUTION: Do not show outprocessed personnel on
                       the unit reports.
    E. ICP: HAC-A17-06-04

3.3.2 Corrector Descriptions - Functional. None.

3.3.3 Summary of Changes.

a. Copy library member changes.
    1. Changed: None.
    2. Deleted: None.
    3. Added: None.

b. Control library member changes.
    1. Changed: None.
    2. Deleted: None.
    3. Added: None.

3.4 Adaptation Data.   This paragraph has been tailored out.

3.5 Related Documents.

3.5.1 Technical Documentation Changes.   A new AIX version of
Software Center Operator Manual (SCOM), AISM 25-HAC-A17-AIX-SCOM
dated 10 September 1998 has been issued.   This current version of
AISM 25-HAC-A17-AIX-SCOM may be obtained from:

U.S.Army Information Systems Software Development Center-
Washington
Attn: AMSEL-SE-IS-SDW-E-I, Stop H-5.
Fort Belvoir, VA 22060-5576.

2

Change Package Control Number: HAC-A17-06-04

3.5.2 Functional Manual Changes.   A new AIX version of Software
User Manual (SUM), AISM 25-HAC-A17-AIX-SUM dated 01 October 1998
has been issued.   This current version of AISM 25-HAC-A17-AIX-SUM
may be obtained from:

U.S.Army Information Systems Software Development Center-
Washington
Attn: AMSEL-SE-IS-SDW-E-I, Stop H-5.
Fort Belvoir, VA 22060-5576.

3.6 Installation Instructions.   These instructions explain how
to install DENTRAD ICP HAC-A17-06-04 onto the host computer at
the installations.

Pre-Install Procedure.   Before beginning to install DENTRAD ICP
HAC-A17-06-04 onto the ISM host computer, follow this procedure

to make sure you have the information you will need when installing.

STEP 1.   Verify Oracle. The Oracle RDBMS must reside on the host and be on-line.

Install Procedure.   This procedure installs ICP HAC-A17-06-04 for DENTRAD R6.04 AIX version 4.2 operating system baseline onto the installation server.   This portion of DENTRAD R6.04 must be installed on each server at the installation.

STEP 1.   Login with the login name of "root".

STEP 2.   Select a drive on the system that contains at least 300 meg of available disk space. Change directory to that drive and create a directory called "ICP.0604". Place the following files for ICP 0604 in the directory ICP.0604:

dentrad_0604.cpio.Z   21941489   17 Dec 1998
install_dentrad_0604   2992   17 Dec 1998
README.dentrad_0604   1179   17 Dec 1998

STEP 3.   Change directory to the start directory created in STEP 2 and type:

chmod 777 install_dentrad_0604 <Enter>
./install_dentrad_0604   <Enter>

STEP 4.   The install_dentrad_0604 will complete the following:

a.   Uncompress and uncpio the dentrad_0604.cpio file.

b.   change the ownership of and copy the files in this ICP into the home directory of user "dentrad".

c.   record all output from each of the steps performed in a file named "dentrad_0604.log" located in the directory specified in STEP 2.

3

Change Package Control Number: HAC-A17-06-04

STEP 5.   Results of the installation in dentrad_0604.log should be reviewed.

3.6.1 Installation Effective Date. This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.

3.6.2 Security Implications.   This paragraph has been tailored out.

3.6.3 ANSOC Installation Instructions.   All users receive the same baseline with change package number through e-mail and Status Tracking and Reporting System (STARS) Bulletin Board System (BBS).   This change package contains the following files:

Quantity	File ID	System	Change Package
1	dentrad_0604.cpio.Z	AIX OS 4.2	HAC-A17-06-04
	README.dentrad_0604		
	install.dentrad_0604		

Ensure that all master file backups have been completed prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations.

Users must not, repeat, must not, make changes to the files.

Security Impact: None.

3.6.4 Special Installation Instructions - All Users.   None.

3.6.5 Point of Contact.   If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3036.

3.6.6 Report of Implementation.   Implementation of this change package must be reported by completing the change package implementation form.   This report must be sent to Ft.Huachuca using Fax or mail.

3.7 Possible Problems and Known Errors.   This paragraph has been tailored out.

4.   Notes

4.1 Notes.   This paragraph has been tailored out.
